PROFESSIONAL SUMMARY

Dynamic Software Developer with 1 year of hands-on experience in full-stack development and quality assurance. Proven expertise in building scalable web solutions for the metal and sports industries, as well as rigorous testing for social media platforms. Adept at bridging the gap between technical requirements and user-centric design.

PROFESSIONAL EXPERIENCE

Software Developer | PriyaQubit Pvt. Ltd. | April 2025 – Present [Link](#)

- **Project Lead – Industrial Management System (Metal Project):** Currently leading the development of an ongoing, large-scale enterprise system for the metal industry. Responsible for overseeing the technical roadmap and ensuring high-precision data handling.
- **Official Corporate Website:** Managed the technical updates and maintenance of the official website, resulting in a 60% increase in mobile responsiveness and user engagement.
- **Quality Assurance – Social Media Ecosystem:** Overhauled the existing testing framework to significantly increase testing coverage and quality. By implementing rigorous manual and functional protocols, identified critical vulnerabilities and improved platform reliability for 500+ daily users.
- **UI/UX & Feature Developer – CloudInfix :** Engineered a comprehensive, full-scale single-page interface (One-Page UI). Diagnosed and resolved critical React.js bugs, significantly improving platform stability and user navigation flow.
- **Continuous Growth:** Accepted a full-time transition within the company following an impactful 9-month tenure, consistently delivering high-quality code and meeting project deadlines.

TalesByDora | Web Design Intern | June 2025 – August 2025 [Link](#)

- Contributed to the end-to-end design and development of the official travel platform.
 - Utilized Figma for high-fidelity prototyping and React for frontend implementation.
-

SKILLS

- **Development:** React.js, Node.js, JS (ES6+), HTML5/CSS3, Python, Java, C, MongoDB, MySQL, SQL, DBMS. [Link](#)
 - **Core Expertise:** System Architecture, API Integration, Social Media & Manual Testing, UI/UX, DSA, OOP, OS. [Link](#)
-

PERSONAL PROJECTS

FantasyXI– High-Traffic Sports Ecosystem (Full-Stack)

- **End-to-End Ownership:** Orchestrated the entire project lifecycle, from initial planning and database schema design to final execution and UI deployment.
 - **Scale & Performance:** Designed the system to handle 1,000+ daily active users, ensuring zero-lag performance and real-time data synchronization.
 - **Technical Achievement:** Built a production-ready showcase that serves as a primary technical asset, demonstrating mastery of scalable architecture.
-

EDUCATION

- **B.Tech in Computer Science & Engineering** | Abacus Institute of Engineering & Management
2022–2026 | GPA: 8.12/10
 - **Class XII (WBCHSE)** | Rajhat High School | 2022 | 87.20%
 - **Class X (WBBSE)** | Rajhat High School | 2020 | 66.57%
-

ACHIEVEMENTS & CERTIFICATIONS

- Published Researcher: "Auto Irrigation System Using Arduino Uno" – American Journal of Advanced Computing. [Link](#)
 - 1st Runner-Up: FOSET-2023. [Link](#)
 - Certifications: Data Structures & Algorithms, C Programming, Artificial Intelligence, Python [Link](#)
-
